

SOCIAL MOTION

brings social skills classes to
The Health Museum!
www.thehealthmuseum.org/social-motion

The Health Museum
JOHN P. MCGOVERN MUSEUM OF HEALTH & MEDICAL SCIENCE
A real body of knowledge

Quirky? Awkward? High Functioning Autism? Gifted? Learning Differences? shy?

Seeking social skill groups, enrichment activities, and friends? *ELEMENTARY SOCIAL SKILLS*

Early exposure to social integration skills provides a solid foundation rooted in awareness, confidence, and knowledge for children with autism and similar social learning differences. Social Motion reinforces core character traits while raising age- relevant social awareness and putting that awareness into motion through active learning. Elementary social skills classes focus on important social basics and group interaction, awareness, observation, and the building blocks for successful friendship!

Social Skills for Grades 4 - up
Thursdays: 5:30pm - 6:45pm
November 7, 2019 – May 2020
C o s t : \$50.00 per session - \$50 registration
fee (New Students Only)
